RESTRICTED DOMAIN NAMES LIST

Pursuant to Article 3.4 of Resolution 001652, 2008, the Administrator of the .CO ccTLD submitted before the Ministry of Information Technologies and Communications during the Domain Names Policy Advisory Committee meeting held on November 9, 2009, a preliminary restricted domain names list.

Upon receipt of Committee members' comments and suggestions and taking into consideration the need to preserve the system's stability, reliability and security, and to protect the Registry from unauthorized use of sensitive geographic domain names or references, or names which can harbor illegal activities or those which, due to their sensitive nature in connection with the State's operation, should only be used by the Government, among others, as well as Administrator's criteria on the subject, the "Ministry of Information Technologies and Communications" (MINTIC for its acronym in Spanish) approved the following restricted domain name list:
